

PROFIT-MAKING WELDING PROCESS

Actual spot-welding work is only 20% of the whole!

what if...
▶▶▶

If "set-up" and "finishing" are reduced, work should be done in 1/5 of the time.

therefore
▶▶▶

PROFIT-MAKING WELDING PROCESS IS:

- simple set-up
- Easy spot weld
- Good for Beginners
- Less finishing

With Table Spot welder, MYSPOT®

- | | | |
|------------------------|---|-----------------------------------|
| electrode set-up | ▶ | electrode set-up |
| work table set-up | | work table set-up |
| switching work station | | switching work station |
| Holding workpiece | | Holding workpiece |

Set-up work is reduced. One person can spot weld easily and quickly.

With High Speed Spot Welding Tech.
